

Road Safety

Safety Stroll

Take a walk out with your grown up around your local area. Think about what you can hear and see when you are close to a road.

How can these things help you when thinking about crossing a road safely?

Which traffic is noisy and you can hear from far away and which is quiet and might not be heard so easily?

Remember

You never cross a road without a grown up and we always walk across a road.

Green Cross Code

Can you investigate the green cross code? What is this? Why do we need it? What is so important about it?

Once you know all about it can you write a list of rules that you need when crossing the road in your local area?

Poster Design

Can you make a poster to help people stay safe when crossing roads?

Danger!

Can you write or draw a list of the dangers you might come across when out in your local area.
