

8th June 2020

Class 1 Home Learning Tasks

Maths

Follow the link below and work through the tasks, there are activities for each day of the week. Some parts will be easier than others.

<https://whiterosemaths.com/homelearning/early-years/>

Literacy

Follow the link below. Share the story with your child and ask the following questions.

<https://www.literacyshed.com/cloudylesson.html>

Questions

What is strange about the house?

Is this an old or young man? How do you know?

Who is the little boy?

Do you think this is how clouds are actually made?

What does the old man say to the little boy?

How does the boy feel when he breaks the ring?

What do you think the old man will say to the little boy?

Investigation

Try making your own bubbles.

The Recipe

Washing Up Liquid - 1 part

Water - 15 parts

Glycerine - 1/4 part

Gently stir the ingredients together and avoid making a lot of foam. It is then best to store in a sealed container overnight (the solution seems to get better with age).

If you want a good strong solution for making enormous bubbles then simply add more glycerine.

Question: Are bubbles always round?

What will happen if we use different shaped bubble blowers?

Use different utensils as bubble blowers.

Let's get messy...

Bubble painting

You will need

Paper

Containers with wide tops (eg plastic cups, yoghurt pots)

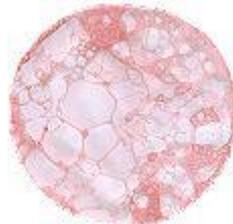

Powder or liquid paint

Washing-up liquid

Straws

Put a squirt of paint and a squirt of washing-up liquid into one of the containers. Add a little water and mix well until the mixture is runny enough to blow bubbles with. Using the straw, blow into the mixture until the container is so full of bubbles that they rise above the top rim.

Quickly take a piece of paper and lightly touch it onto the bubbles. As they touch the paper, the bubbles will burst and leave an imprint on it.

You may need to try a few times until you get a good density of colour. However, note that the imprint will never be really dark.
